

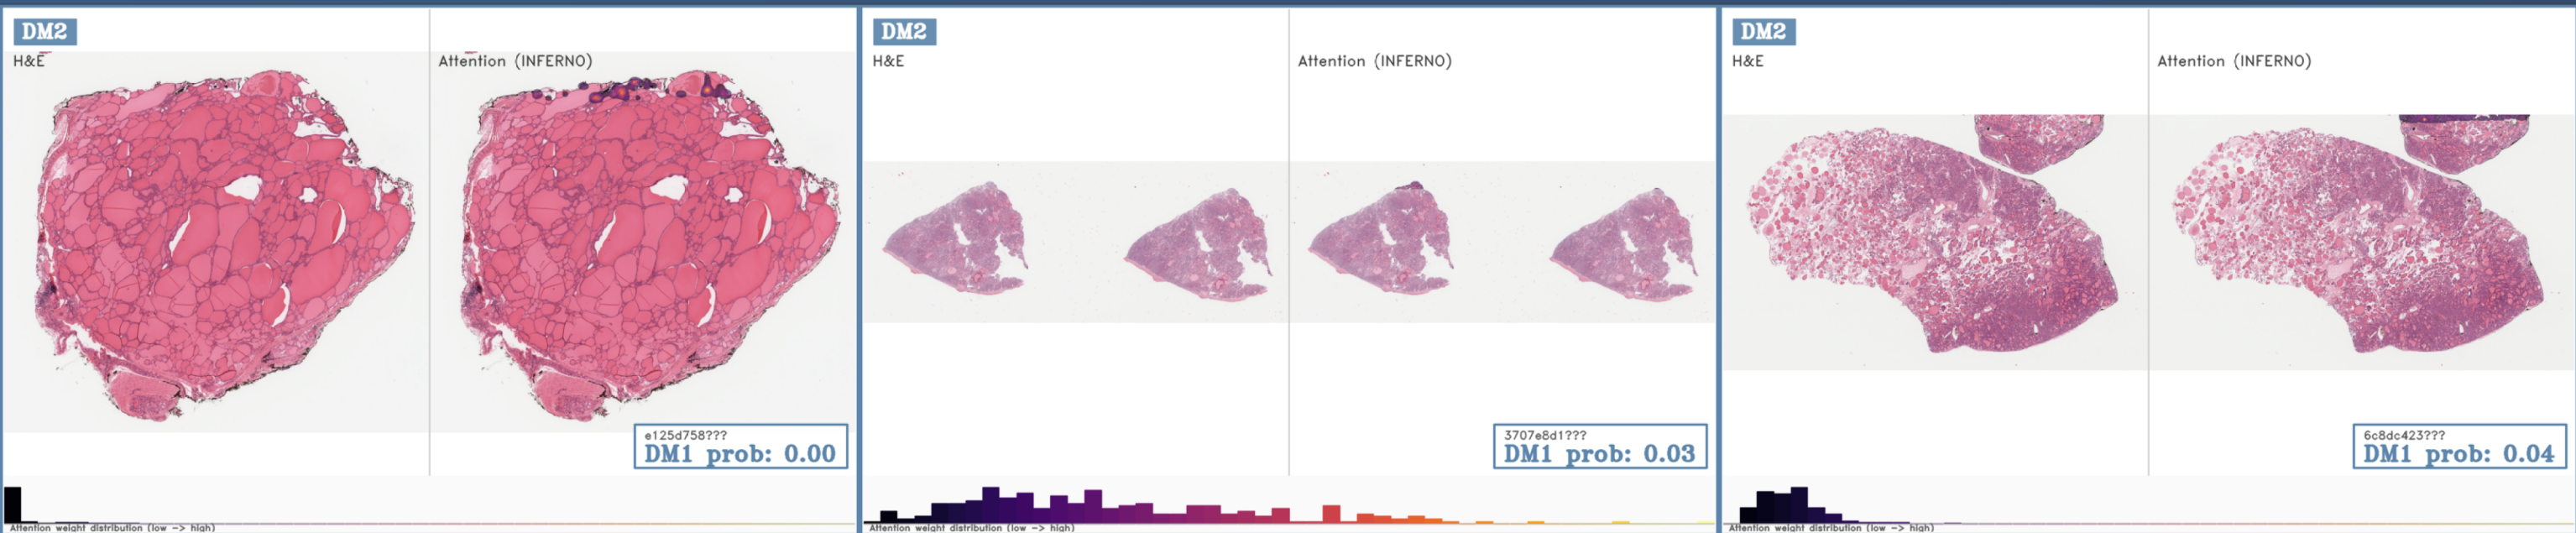

Fig 5 – CLAM gated-attention heatmaps (top-3 DM1+ / top-3 DM2)

TCGA-THCA | UNI foundation features | fold-3 best AUC=1.00

DM1+ HIGH CONFIDENCE (predicted as DM1, label = DM1)

DM2 LOW CONFIDENCE (predicted as DM2, label = DM2)

Heatmap colormap = INFERNO (perceptually uniform). Borders: green = DM1+, blue = DM2. Histogram = per-tile attention weight distribution.
