

Next action board: fastest path to higher-impact evidence

1

next_24h

Freeze the current strict Top-13 preset and archive exact thresholds.

prevents moving-target criticism

2

next_24h

Order/check availability for HMTEVVRHC, HMTEVVRRC, HMTHRVVEC, GADGVGKSAL, GAGGVGKSAL, GASGVKGADL.

turns flagship candidates into executable experiments

3

next_48h

Launch WT/decoy pMHC and TCR-pMHC structure/short-MD controls for both leads.

adds specificity evidence before assays

4

next_72h

Prepare pre-registered assay gate sheet for collaborator review.

reviewer-proof claim discipline

5

next_7d

Run no-public-overlap and source-heldout repeat on any new external dataset.

largest manuscript-impact upgrade after wetlab
