

Claim ladder: what can be said now versus later

L1_ALLOWED_NOW

DL-first/TCR-aware triage enriches current labeled candidates and narrows down expensive testing

L2_ALLOWED_FOR_CASE_STUDY

GADGVGKSAL and HMTEVVRHC are structurally auditable high-priority candidates. Risk: structure/MD do not prove recognition

L3_ALLOWED_AFTER_WETLAB

A candidate is immunogenic in the tested assay context.

Risk: assay-specific positivity may not generalize

L4_FORBIDDEN_NOW

Universal TCR-aware neoantigen prediction or clinical utility.

Risk: overclaim
