

GSE151179 tumours — panel z is independent of driver class

a Tumour panel z by driver class

BRAF, fusion, pTERT and WT tumours overlap substantially in panel z — driver class is not a substitute for panel readout.

b Per-class summary

driver	n	median panel z
WT	11	+0.03
BRAF	16	-0.17
Fusion	9	-0.04
pTERT	3	-0.64

Kruskal–Wallis $H = 2.68$, $p = 0.444$ · driver class does not partition panel z
