

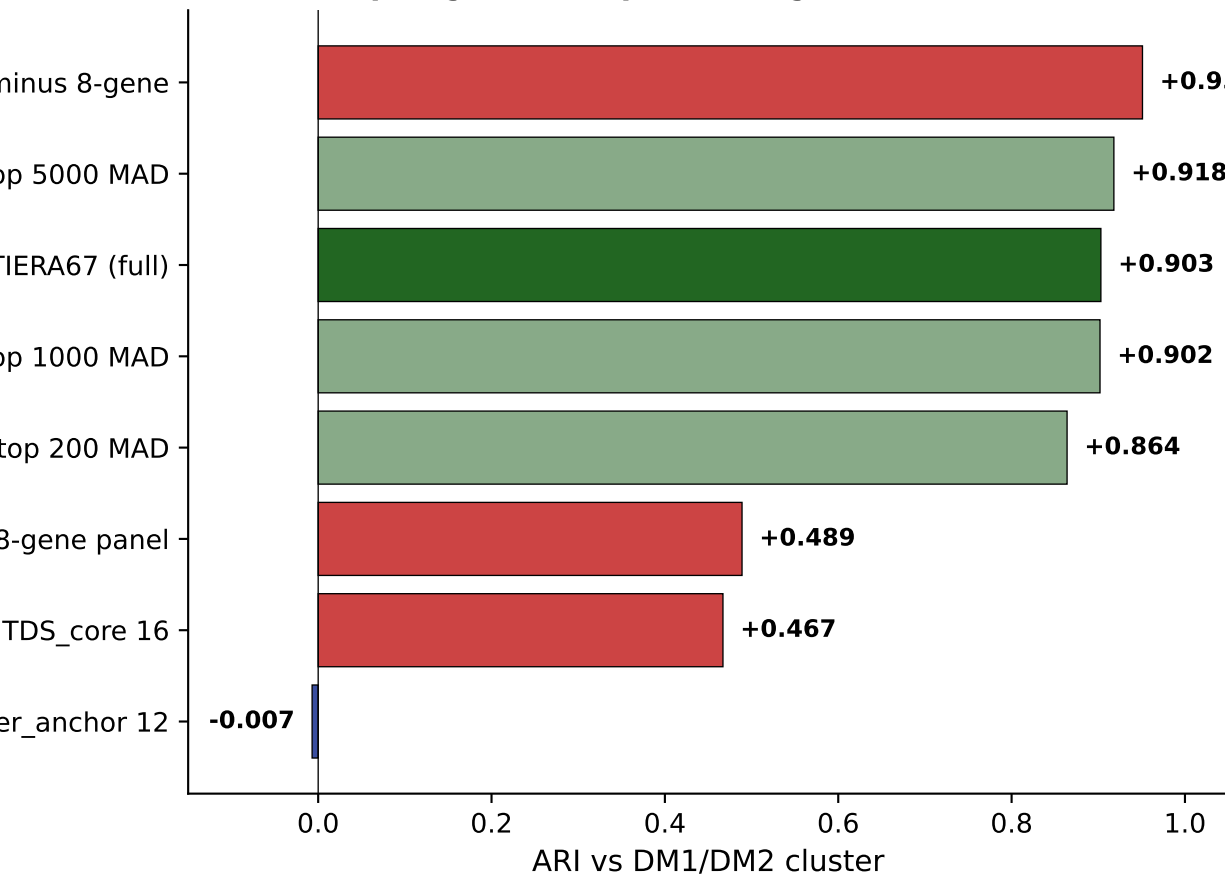

Figure 4 — Pan-genome cluster robustness (Pillar 4)

A — Cluster panel ARI comparison

TIERA67 $\approx$ pan-genome top 5000; 8-gene alone modest; Driver-only ≈ 0

B — Pan-genome top-N coverage of TIERA67 + 8-gene

Hypergeometric p (TIERA67 in top 100) = $3e-4$ ★
